

2.tar.gz

```
GNU nano 6.2 tarz.sh *
#!/bin/bash
#project:compress a file tar.gz
#task:./tarz.sh
#author:vinay

file_path= "file1.txt"
#checking the file path is existed
if [-z $file_path.exists] ;then
    echo "file is existed"
    exit 1
fi
#tar.gunzip the file
if [-f "$file_path"]
zip $file_path.tar.gz $file_path
echo "file is compress and exteaact to file1.txt.tar.gz"
```

Output: file is compressed

```
root@ustuser1-vm:/home/ustuser1/pyth#
← file1.txt file1.txt.tar.gz monitors.
root@ustuser1-vm:/home/ustuser1/pyth#
```
